

GOGREEN CLIMATE PROTECTION PROJECT:
**WIND POWER PROJECT,
 ANDHRA PRADESH, INDIA**

Project description

Vaayu (India) Power Corporation Private Limited (VIPCPL) has installed a 50.4 MW wind farm in the state of Andhra Pradesh in India. The project activity consists of 63 machines of Wind World make WW-53 rated capacity 800 KW each. The electricity generated by project activity shall be supplied to the state electricity utility thereby contributing to reducing the energy demand supply gap in the state of Andhra Pradesh. The project activity assists the sustainable growth of the region by providing clean and green electricity to the state electricity grid.

PROJECT: WIND POWER PROJECT, ANDHRA PRADESH, INDIA

Project standard	Goldstandard VER 4603
Project type	Wind
Technology focus	Wind Power
Location	India
Project scale	Large
Supported SDGs	7, 8, 13
